## **ADVANCED FOAMING**

Digital control milk volume

One-click foaming

Preset six types of foam

Achieve various types of foam...  
Cold/hot or thick/thin

The Milk Bot has the ability to preset six types of foam.

Thick foam with good liquidity can be achieved for professional baristas.

All the parameters can be preset respectively and testing can be carried out at any time during the parameter adjustment.

Free setting of hot and cold.

The heating temperature can be set freely.

Air ratios of cold and hot foam are adjustable respectively.

Foaming without steam is silkier and sweeter.
